

March 2019

Dear Parents/Carers

Thank you for the fantastic response to our childcare consultation survey that was sent via text message at the end of February. All of the parents who replied were extremely positive about the idea and indeed many parents expressed an interest in sending their children to the after school care club.

With the above in mind, I am writing to keep you fully informed of our outline plans. Our aim is to start the after school care club as soon as possible after the Easter holidays. However, we are unable to register any children for this or confirm a start date as the school needs to recruit suitable staff and the employment checks we have to complete take considerable time.

I understand that this may make it difficult for you to plan your childcare however as soon as we have appropriate staff in place we will write to you again with information on how to register your children for the after school care club.

Thank you for your continued support

Yours sincerely

Jonathan Nixon
Head of School
