

Dear Parent,

I have recently received a letter at home requiring us to propose a member for the parent Governor role and I have gladly put my name down.

Being the mother of four children, from which 3 are currently being integrated as your pupils, Teodor 5L, Maria 3L and Justin-Reception, I have a permanent interest in their school involvement and progress.

Parents play an integral role within education and I am keen to further develop the links between home and school. I know that a happy, successful school depends on us working together. I believe that Cavendish Primary School has great potential and I am determined to secure an outstanding future for the school as a parent Governor.

I have always been seeing Cavendish Primary School as a happy school where the atmosphere is relaxed and conducive to high achievement and I have also known and you always took pride in your diverse community and valued every child as an individual, working closely with parents and families.

I have also had the chance to look on the website and to read the formal proposal for the Federation of Cavendish Primary School and Knowleswood Primary School and to understand the great involvement of the leadership team of Cavendish in order to support both schools. I really think that this partnership will help them to successfully work together and to take advantage of all the opportunities of sharing staffing, expertise, resourcing and administration.

I am a parent with great aspiration towards a successful career and I am currently attending Level 3 AAT course which after completions will give me the chance to follow the ACCA path in order to become a qualified chartered accountant in the UK. Being part of a fantastic team of J N Bentley company Skipton for nearly 2 years, I have been trained to work inside the accounts department. The role of the Accounts Payable, that I am currently having, involves providing financial, administrative and clerical support to the organisation. I have also had to complete payments, process, verify and reconcile invoices for our suppliers and I have also been continuing to improve the payment process.

I would also like to mention that I use to activate as secondary school teacher back in Romania for 5 years and I have also been intercalated as PGSE student in the UK, followed by practising as teaching assistant and supply teacher inside Invinio Academy- Scunthorpe, Burton Primary School- Burton upon Stather and Barkerend Primary School- Bradford. I have worked closely with the class teachers and this experience helped me to understand the value of their work and the constant commitment with the school in order to keep the teaching process at the highest standard.

Previously I have also had the chance to work in many other places starting with factories, canteens, cleaning, caring and moving toward receptionist, customer service and all altogether helped me to become a multi skilled and to developed a great sense of small details.

As mother I am trying to be as active as possible in my children' educational process and to inspire and be a role model for them so they can have great respect for the school values and to cherish every single thing that are being said by their teachers and all the people working inside the school.

I am really keen to support and take part to regular meetings inside the school and to become a close part of the school life. I am sure that everyone will benefit from our collaboration and I would be really happy to emphasise with all our hard-working contribution in order to support the school community.

I am looking forward to this great opportunity.

Many thanks,

Alina Calestru
