Primary School

# **Early Years Policy**

## Statement of intent

Our school greatly values the importance of the early years foundation stage (EYFS) in providing a secure foundation for future learning and development.

This policy has been developed in conjunction with the relevant guidance and legislation to ensure that each child has a happy and positive start to their school life in which they can build a foundation for a love of learning.

We ensure that children learn and develop well and are kept healthy and safe. We promote teaching and learning to ensure children's readiness for the next stage of their education, and give children a broad range of knowledge and skills that provide the right foundation for good future progress through school and life.

We seek to provide:

- **Quality and consistency**, so that every child makes good progress and no child gets left behind.
- **A secure foundation** through learning and development opportunities which are planned around the needs and interests of each child and are assessed and reviewed regularly.
- **Partnership working** between practitioners and parents.
- **Equality of opportunity** and anti-discriminatory practice, ensuring that every child is included and supported.

## Aims

Through the implementation of this policy, we aim to:

- Give each child a happy and positive start to their school life in which they can establish a solid foundation for a love of learning.
- Enable each child to develop socially, physically, intellectually and emotionally.
- Encourage children to develop independence within a secure and friendly atmosphere.
- Support children in building relationships through the development of social skills such as cooperation and sharing.
- Work alongside parents to meet each child's individual needs to ensure they reach their full potential.

Four overarching principles shape our practice:

- Every child is a **unique child**, who is constantly learning and can be resilient, capable, confident and self-assured.
- Children learn to be strong and independent through **positive relationships**.
- Children learn and develop well in **enabling environments with teaching and support from adults**, who respond to their individual interests and needs and help them to build their learning over time. Children benefit from a strong partnership between the school and parents.
- **Learning and development** is important. Children develop and learn in different ways and at different rates.

To put these principles into practice, the school:

- Provides a balanced curriculum which takes children's different stages of development into account.
- Promotes equality of opportunity and anti-discriminatory practice.
- Works in partnership with parents.
- Plans challenging learning experiences, based on individual needs, which are informed by observation and assessment.
- Provides a safe and secure learning environment.

### 1. Learning and development

In partnership with parents, the school promotes the learning and development of children to ensure they are ready for the next stage of education.

The EYFS provision and practice is based on observations of children's needs, interests and stages of development. Learning and development in school are planned to reflect these interests and individual circumstances in order to provide each child with a challenging and enjoyable experience.

There are seven areas of learning and development that must shape education programmes in EYFS settings. These are split into two important and interconnected sections – prime and specific:

The 'prime' areas of learning and development are:

- Communication and language:
  - Listening, attention and understanding
  - Speaking
- Physical development:
  - Gross motor skills
  - Fine motor skills
- Personal, social and emotional development:
  - Self-regulation
  - Managing self
  - Building relationships

The 'specific' areas of learning and development are:

- Literacy:
  - Comprehension
  - Word reading
  - Writing
- Mathematics:
  - Numbers
  - Numerical patterns
- Understanding the world:
  - Past and present
  - People, culture and communities
  - The natural world
- Expressive arts and design:
  - Creating with materials
  - Being imaginative and expressive

In organising and implementing educational programmes, the school will ensure that a broad range of activities and experiences are planned, having regard to three characteristics of effective teaching and learning in the EYFS:

- Playing and exploring – children investigate and experience things, use what they know in their play and are willing to try new things.
- Active learning – children concentrate, keep on trying if they encounter difficulties and enjoy their achievements.
- Creating and thinking critically – children have and develop their own ideas, make links between ideas and use what they already know to learn new things, and develop strategies for doing things.

Further information regarding the progression of learning through to the National Curriculum, is set out in the school's progression documents.

## **2. Assessment**

Assessment plays an important part in helping the school to recognise children's progress, understand their needs, plan activities, and assess the need for support.

Parents will be kept up-to-date with their child's progress and development, and the EYFS lead at each school will address any learning and development needs in partnership with parents.

Ongoing formative assessments are used to assess the day-to-day learning and development of children in the EYFS. Practitioners interact and observe children to understand their interests and learning needs, and will use this information to inform practice and provision for each child.

The EYFS setting will undertake a summative assessment of the level of each child's development at certain stages. These are:

- Reception Baseline Assessment – a short assessment which is taken within the first six weeks of a child starting Reception year.
- Each term of EYFS
- The EYFS Profile – a comprehensive assessment completed at the end of the EYFS to provide a well-rounded picture of a child's knowledge, understanding and abilities, attainment against the early learning goals (ELGs), and their readiness for Year 1.

The school ensures that teachers actively engage children, their parents and other adults who have significant interaction with specific children in their assessment processes to provide a well-rounded picture of their development and attainment.

The school will ensure that assessment processes allow adults spend as much time as possible interacting with children; directly supporting their learning and development. Teachers will not be required to record or document excessive evidence to prove children's level of development; however, they may decide to record particularly noteworthy achievements in order to plan the next step in learning.

The school reports EYFS Profile results to the LA when these are requested. The LA is under a duty to return this data to the relevant government department.

Reasonable adjustments will be made to the assessment process for children with SEND as appropriate.

The EYFS lead will discuss any cause for concern in a child's progress with the child's parents and the SENDCo especially where this concern relates to the prime areas of learning. A strategy of support will be agreed upon and consideration will be taken as to whether the child may have SEND which requires additional support.

The school takes reasonable steps to provide opportunities for children with EAL to use their home language in play and learning whilst also ensuring that these children have sufficient opportunities to reach a good standard of English. During assessment, if it is found that a child does not have a strong grasp of English language, the EYFS lead will contact the child's

parents to establish their home language skills to establish whether there is cause for concern about a language delay.

### **3. Inclusion**

All children are valued as individuals irrespective of their ethnicity, culture, religion, home language, background, ability or gender. The trusts equality information and objectives statements ensures that the needs of all children are met, regardless of any protected characteristics they have.

The Special Educational Needs and Disabilities (SEND) Policy ensures all children receive the support they need and are given the best learning experience possible. SEND in the EYFS setting will be monitored and managed by each school's SENDCO.

The EYFS curriculum is planned in order to meet the needs of the individual child and support them at their own pace.

### **4. The learning environment and outdoor spaces**

The learning environment is organised in such a way that children can explore and learn independently in a safe and interactive environment.

Children have access to an enclosed outdoor environment, and daily access to the outdoor environment is planned.

### **5. Being healthy**

The school will promote the good health of children in the EYFS, including the promotion of good oral health.

Food or drink provided to children is healthy, balanced and nutritious. Fresh drinking water is available at all times.

Regular opportunities to take part in physical activity are an integral part of the day.

A range of communication methods are in place to allow children to share any worries they may have.

### **6. Staffing**

A robust Safer Recruitment Policy is in place, which aims to ensure that members of staff employed in the EYFS are suitable.

Upon employment, all EYFS staff receive induction training to ensure that they understand their roles and responsibilities, including information about emergency evacuation procedures, safeguarding, child protection and health and safety.

Staff will be supported to undertake the appropriate training and professional development to ensure children receive the best quality learning experience.

There will be at least one member of staff who has a current paediatric first-aid (PFA) certificate on the school premises at all times, and will accompany children on any school outings. All newly qualified staff with a level 2 or 3 qualification will be PFA trained. The school will organise PFA training to be renewed every three years. The list of staff who hold PFA certificates can be found in classrooms.

The school provides a staffing ratio in line with the safeguarding and welfare requirements set out in the 'Statutory framework for the early years foundation stage'.

The school adopts the following staffing ratios:

- For children aged three and over:
  - Where a staff member with qualified teacher status (QTS), early years professional status, or another suitable level 6 qualification is working directly with the children, there is one member of staff for every 13 children, and at least one other member of staff holds a full and relevant level 3 qualification.
  - Where a staff member with qualified teacher status (QTS), early years professional status, or another suitable level 6 qualification is not working directly with the children, there is one member of staff for every 8 children, and at least one other member of staff holds a full and relevant level 3 qualification.
- For children in Reception classes:
  - Class sizes will be limited to 30 children per school teacher.

Only under exceptional circumstances, and where the quality of care and safety of children is maintained, will changes be made to the ratios.

Each child is assigned a key person whose role it is to help ensure that every child's care is tailored to meet their individual needs. The EYFS lead will inform parents of whom their child's key person is and will explain the role of the key person when their child begins attending the school.

## **7. Parental involvement**

We firmly believe that the EYFS cannot function without the enduring support of parents.

Parents are invited to regular parental meetings; however, the school has an open-door policy and parents are welcome to talk to teachers at the start and end of the school day.

Parents also have access and the opportunity to contribute to their child's online learning journey.

## **8. Transition**

Prior to children joining our school:

- Families are contacted invited to for a visit with their child.
- Meetings for new parents are held.
- Staff visit children in their pre-school settings.
- Children attend a number of sessions with their parents before attending independently.

As children transition to their next year group we will:

- Inform parents in advance of the new class and offer time for any discussions about this.
- Organise sessions for the children to visit their new class with familiar staff.
- Transition meetings between teachers will take place prior to the end of the year in order to ensure new teachers are fully prepared to meet the needs of the new class.

## **9. Monitoring and review**

Any changes made to this policy will be communicated to all relevant stakeholders.

All members of staff directly involved with the EYFS are required to familiarise themselves with all processes and procedures outlined in this policy as part of their induction.
